Infants and young children requiring additional funded vaccines

Aboriginal or Torres Strait Islander infants living in the ACT
Extra vaccines required:
· Meningococcal B course
 Born at less than 28 weeks gestation Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years Hepatitis B at 12 months
Born at less than 32 weeks gestation
Extra vaccines required:
· Hepatitis B at 12 months
Weight less than 2000gm at birthExtra vaccines required:Hepatitis B at 12 months
Chronic lung disease
Extra vaccines required:
Pneumococcal (Prevenar 13®) at 6 months
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required:
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic liver disease
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic liver disease Extra vaccines required:
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic liver disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic liver disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Prevenar 13®) at 4 years¥
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic liver disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Intracranial Shunt
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic liver disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Intracranial Shunt Extra vaccines required:
 Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic cardiac disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Chronic liver disease Extra vaccines required: Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Prevenar 13®) at 6 months Pneumococcal (Pneumovax 23®) at 4 years¥ Intracranial Shunt

Down syndrome

Extra vaccines required:

- · Pneumococcal (Prevenar 13®) at 6 months
- Pneumococcal (Pneumovax 23®) at 4 years¥

Functional/anatomical asplenia or complement deficiency

Extra vaccines required:

- Pneumococcal (Prevenar 13®) at 6 months
- · Pneumococcal (Pneumovax 23®) at 4 years¥
- Meningococcal B course
- · Meningococcal ACWY age appropriate course.

Immunocompromising conditions

Extra vaccines may be required. Please consult a general practitioner or paediatrician.

Other chronic conditions

Extra vaccines may be required. Please consult a general practitioner or paediatrician.

Important notes:

* Influenza vaccine is recommended and funded for all children from 6 months to less than 5 years of age and for all Aboriginal and Torres Strait Islander people from 6 months of age.

Influenza vaccine is also funded for children and adolescents with additional risk factors from 6 months of age.

Two doses at least 4 weeks apart is recommended for children less than 9 years of age receiving the vaccine for the first time. Annual dose thereafter.

¥ Additional doses of Pneumovax 23® beyond the age of 4 years may be recommended, depending on ongoing risk. Consult a general practitioner or paediatrician.

For any queries or concerns please talk to an immunisation provider, doctor or call the Health Protection Service, Immunisation Enquiry Line on 5124 9800.

Please note updates to the Australian Immunisation Handbook regularly occur. Check updates at: https://immunisationhandbook.health.gov.au

Accessibility

If you have difficulty reading a standard printed document and would like an alternative format, please phone 13 22 81.

If English is not your first language and you need the Translating and Interpreting Service (TIS), please call 13 14 50. For further accessibility information, visit: www.health.act.gov.au/accessibility www.health.act.gov.au | Phone: 132281
