Subject: RE: [AUS - ACT] HL7 and DICOM migration status / questions [SEC=UNCLASSIFIED]

Hi [redacted]

Nothings changed on our side so all the details should still be valid. I'm not sure that my team were too heavily involved in establishing the Test connection, outside of providing AE titles, ports, IP addresses

Chris/Nick, was there any setup that occurred when establishing the connection to Test that needs to be replicated for pre prod?

Thanks

Scott

Scott,

Is there anything your team needs to do so Agfa can access the Siemens PACS from pre-Prod? It all worked for the Test environment but I don't know what might have been done to set that up.

Subject: [AUS - ACT] HL7 and DICOM migration status / questions

Hi All,

HL7 migration

The remaining reports should be completed in +/- 1,5 hours.

DICOM migration

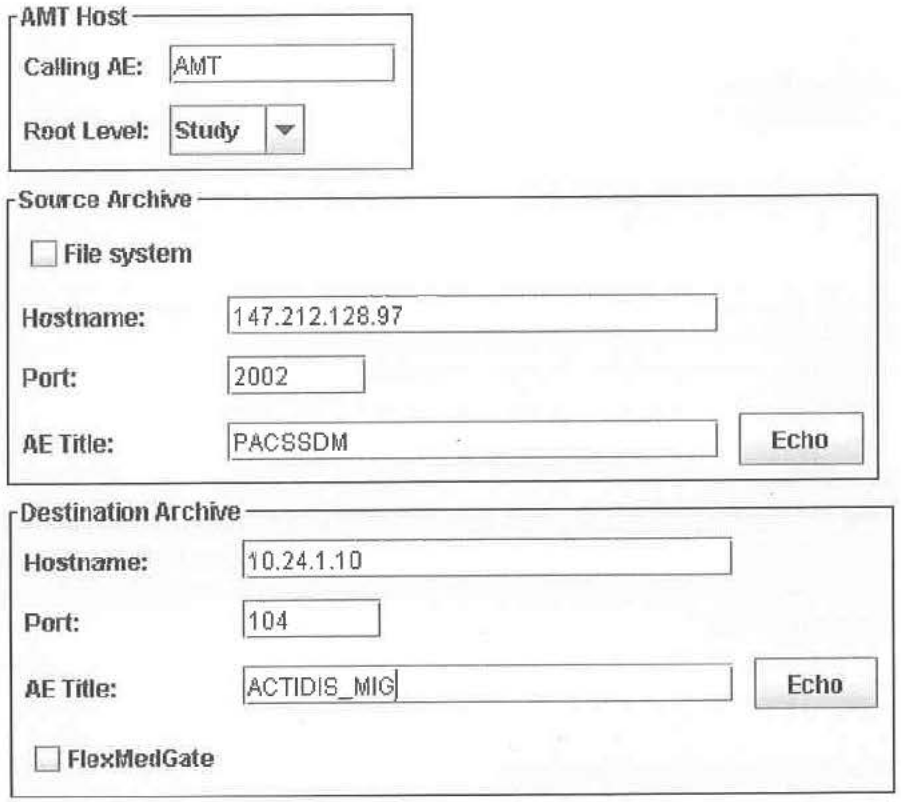
Validation / DICOM updates

Today I managed to execute the full validation and prepare all the needed DICOM header updates. The **data is now ready** to start the DICOM migration towards EI.

I do have a small amount of studies that didn't pass our validation and no updates are provided in the 'update excel files'. For these +/- 450 studies I will provide the details as soon as possible.

Migration startup / Connection testing

I tried to send some studies to the production system, but get a DICOM ERROR C001 on all the tests (some randomly selected StudyUIDs below). **Can someone have a look in the Siemens PACS if the AE Title(s) of EI have been created** and the permissions are OK for the C-MOVE operations ?
(I would advise to create ACTIDIS_MIG and ACTIDIIS_PRIORS)



[redacted] c001 Test to _MIG
[redacted] c001 Test to _MIG
[redacted] c001 Test to _MIG
[redacted] c001 Test to _PRIORS

Kind Regards,

[redacted]

Hi All,

Attached you can find the current HL7 migration status.
As you can see the HL7 ORU migration is almost at 80%.

Today I'll be working on the DICOM verification (DICOM vs HL7) and hopefully start the DICOM migration for studies that don't need any DICOM header updates.
(Starting with data from 2018)

Kind Regards,

Hi All,

The migration is running again after the updates to the paths.
The remaining time for the HL7 ORM migration is currently estimated to take another 2,5 days to complete.
Attached you can find the current migration status.

I'm still stuck on the last file that I need, PACS_Series.txt.
Can you zip that one also ? For some reason I can't most of the .txt files ...
The zip files copied very fast.

```

Subject: [AUS - ACT] ACTPAS/ EDIS configuration into production to start for the data migration for IDIS [SEC=UNCLASSIFIED]

Hi All,

HL7 migration

All needed data is now ready on the AMT server and the HL7 ORM migration was started. Once it has been running for a while, I will be able to provide some better stats, but currently I can say we are sending +/- 10 HL7 messages per second. That would be 3 to 4 days to complete the HL7 ORM migration.

Some attachments already failed, but I believe it simply is an extra space in the filename (after VPROT). @[redacted] (Health) Can you confirm that I can just remove the space and retry these ORM's ? (I have +/- 26.000 of these VPROT in the attachment extract, VTECH seems to have the same issue)

Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1477089_7060216.pdf cannot be found.
Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1497192_7093555.pdf cannot be found.
Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1391902_6920855.pdf cannot be found.

DICOM migration

I can see all needed extracts on the provided share, but I don't seem to be able to copy the + 2GB 'image' files to the AMT server for import. The copy simply stops after a few seconds. Could someone try and zip these files ? Or can we think of another way to get them on the AMT folder: C:\Users\Administrator\Desktop\DICOM extracts\PROD

Kind Regards,

[redacted]

In regards to the below table, we are waiting on confirmation that the Archived ADT messages were all processed successfully, and that the live feeds from ACTPAS and EDIS are now being processed. We have not yet received any details on that task, including final processing statistics. Could you please follow up on that for us.

Additionally, we will not be able to deliver the RIS and PACS migration files today as scheduled, since Siemens have had problems processing the data at their end. We are expecting now that the earliest possible date for delivery from ACT Health to Agfa will be this Friday 21 September, though it is more likely to be CoB on Monday 24 Sept.

I have updated some of the table dates below to reflect actuals and adjusted expected dates.

Hi [redacted]

Apologies, I thought I sent this out after the meeting but realised that I did not sent it out.

My update to the events as discussed in the meeting 29/08/2018 4:30 – 5:10pm:

#	Task	Start Date	End Date	Resource
1	Archiving of ACTPAS messages	29/08/2018		Michael
2	PMI Data Extraction	29/08/2018	31/09/2018	[redacted]
3	Start ACTPAS interface in IDISP Pre-prod	[redacted] to fill-in		Agfa
4	Agfa Patient Load	04/09/2018	09/09/2018	Agfa
5	Re-play the archived ACTPAS messages	11/09/2018	14/09/2018??	Michael, Agfa
6	Start ACTPAS interface - ACTH	13/09/2018		Michael, Agfa
7	Agfa 20% RIS load	24/09/2018	28/09/2018	Agfa, [redacted]
8	Image Migration of (first two years)	29/09/2018	19/10/2018	Agfa
9	Agfa 80% RIS load	29/09/2018	19/10/2018	Agfa
10	Image Migration of the rest	20/10/2018		Agfa

Please update task 3 and the following dates will depend on that.
I will update the rest in line with the schedule and will distribute another Runsheet.

Kind Regards,

Dev

Hi Dev,
The archiving is a standard process that has been in place for years so no issue there. I think you need to swap 4 and 5 over, we need to replay the archived messages first, then connect up the live ACTPAS interface.
Cheers,
Michael

Hi Michael,

We are ready to start the PMI data extract today.
Is the achieving is in place are does it require be manually started?

The events as per the current schedule:

#	Task	Start Date	End Date
1	Achieving of ACTPAS messages	29/08/2018	
2	PMI Data Extraction	29/08/2018	31/09/2018
3	Agfa Patient Load	03/09/2018	07/09/2018
4	Start ACTPAS interface in Pre-prod	10/09/2018	
5	**Re-play the archived ACTPAS messages**	**10/09/2018**	
6	Agfa 20% RIS load	17/09/2018	21/09/2018
7	Image Migration of (first two years)	22/09/2018	12/10/2018
8	Agfa 80% RIS load	22/09/2018	12/10/2018
9	Image Migration of the rest	13/10/2018	

All these activities will be one after the other except for 7 and 8.

[redacted], could you please confirm that item 5 happening after item 4 would not be an issue?

Kind Regards,

Dev

Subject: RE: [AUS - ACT] HL7 and DICOM migration status / questions [SEC=UNCLASSIFIED]

It could be that we only know about the Prod PACS address? What [redacted] has below for ACTIDIS_MIG is different to the production PACS address:

Parameter	Value
HOST	actentdicom.act.gov.au
AE Title	EIPROD
IP	10.24.2.101
PORT	104

Do we need to somewhere specify 10.24.1.10?

Hi [redacted]

Nothings changed on our side so all the details should still be valid. I'm not sure that my team were too heavily involved in establishing the Test connection, outside of providing AE titles, ports, IP addresses

Chris/[redacted] was there any setup that occurred when establishing the connection to Test that needs to be replicated for pre prod?

Thanks

Scott

Scott,

Is there anything your team needs to do so Agfa can access the Siemens PACS from pre-Prod? It all worked for the Test environment but I don't know what might have been done to set that up.

Subject: [AUS - ACT] HL7 and DICOM migration status / questions

Hi All,

HL7 migration

The remaining reports should be completed in +/- 1,5 hours.

DICOM migration

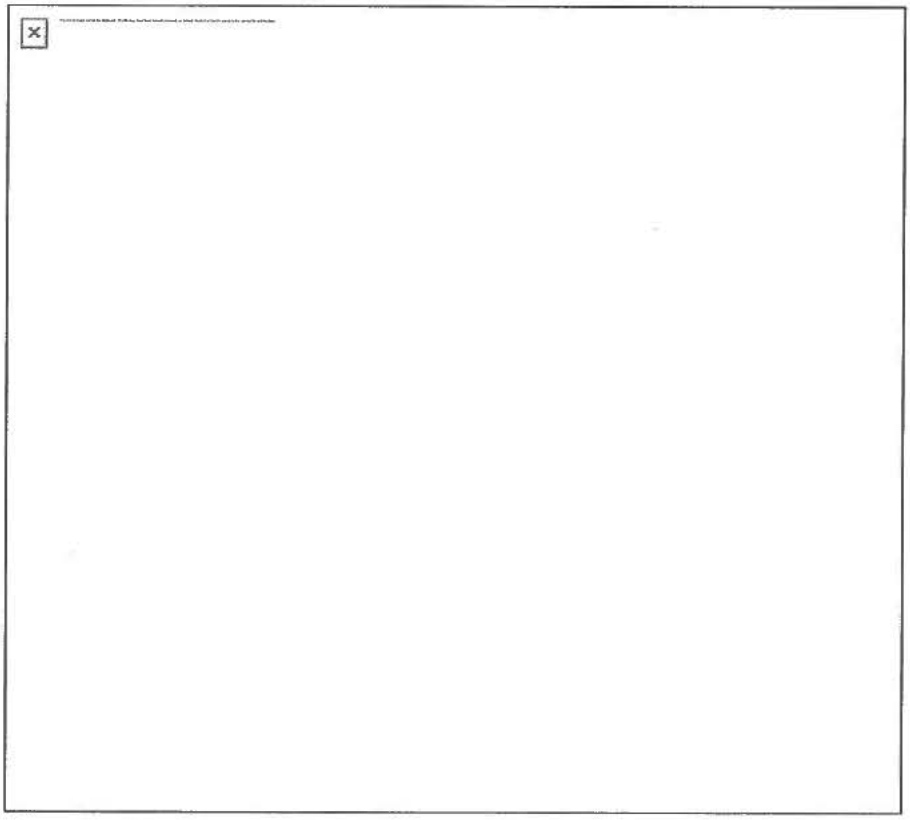
Validation / DICOM updates

Today I managed to execute the full validation and prepare all the needed DICOM header updates. The **data is now ready** to start the DICOM migration towards EI.

I do have a small amount of studies that didn't pass our validation and no updates are provided in the 'update excel files'. For these +/- 450 studies I will provide the details as soon as possible.

Migration startup / Connection testing

I tried to send some studies to the production system, but get a DICOM ERROR C001 on all the tests (some randomly selected StudyUIDs below). **Can someone have a look in the Siemens PACS if the AE Title(s) of EI have been created** and the permissions are OK for the C-MOVE operations ?
(I would advise to create ACTIDIS_MIG and ACTIDIIS_PRIORS)



[redacted]	c001 Test to _MIG
[redacted]	c001 Test to _MIG
[redacted]	c001 Test to _MIG
[redacted]	c001 Test to _PRIORS

Kind Regards,

[redacted]

Hi All,

Attached you can find the current HL7 migration status.
As you can see the HL7 ORU migration is almost at 80%.

Today I'll be working on the DICOM verification (DICOM vs HL7) and hopefully start the DICOM migration for studies that don't need any DICOM header updates.
(Starting with data from 2018)

Kind Regards,

[redacted]

Hi All,

The migration is running again after the updates to the paths.
The remaining time for the HL7 ORM migration is currently estimated to take another 2,5 days to complete.
Attached you can find the current migration status.

I'm still stuck on the last file that I need, PACS_Series.txt.
Can you zip that one also ? For some reason I can't most of the .txt files ...
The zip files copied very fast.

Kind Regards,

Subject: [AUS - ACT] ACTPAS/ EDIS configuration into production to start for the data migration for IDIS [SEC=UNCLASSIFIED]

Hi All,

HL7 migration

All needed data is now ready on the AMT server and the HL7 ORM migration was started. Once it has been running for a while, I will be able to provide some better stats, but currently I can say we are sending +/- 10 HL7 messages per second. That would be 3 to 4 days to complete the HL7 ORM migration.

Some attachments already failed, but I believe it simply is an extra space in the filename (after VPROT). @[redacted] (Health) Can you confirm that I can just remove the space and retry these ORM's ? (I have +/- 26.000 of these VPROT in the attachment extract, VTECH seems to have the same issue)

Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1477089_7060216.pdf cannot be found.
Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1497192_7093555.pdf cannot be found.
Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1391902_6920855.pdf cannot be found.

DICOM migration

I can see all needed extracts on the provided share, but I don't seem to be able to copy the + 2GB 'image' files to the AMT server for import. The copy simply stops after a few seconds. Could someone try and zip these files ? Or can we think of another way to get them on the AMT folder: C:\Users\Administrator\Desktop\DICOM extracts\PROD

Kind Regards,

[redacted]

[redacted]

In regards to the below table, we are waiting on confirmation that the Archived ADT messages were all processed successfully, and that the live feeds from ACTPAS and EDIS are now being processed. We have not yet received any details on that task, including final processing statistics. Could you please follow up on that for us.

Additionally, we will not be able to deliver the RIS and PACS migration files today as scheduled, since Siemens have had problems processing the data at their end. We are expecting now that the earliest possible date for delivery from ACT Health to Agfa will be this Friday 21 September, though it is more likely to be CoB on Monday 24 Sept.

I have updated some of the table dates below to reflect actuals and adjusted expected dates.

Hi [redacted]

Apologies, I thought I sent this out after the meeting but realised that I did not sent it out.

My update to the events as discussed in the meeting 29/08/2018 4:30 – 5:10pm:

#	Task	Start Date	End Date	Resource
1	Archiving of ACTPAS messages	29/08/2018		Michael
2	PMI Data Extraction	29/08/2018	31/09/2018	[redacted]
3	Start ACTPAS interface in IDISP Pre-prod	[redacted] to fill-in		Agfa
4	Agfa Patient Load	04/09/2018	09/09/2018	Agfa
5	Re-play the archived ACTPAS messages	11/09/2018	14/09/2018??	Michael, Agfa
6	Start ACTPAS interface - ACTH	13/09/2018		Michael, Agfa
7	Agfa 20% RIS load	24/09/2018	28/09/2018	Agfa, [redacted]
8	Image Migration of (first two years)	29/09/2018	19/10/2018	Agfa
9	Agfa 80% RIS load	29/09/2018	19/10/2018	Agfa
10	Image Migration of the rest	20/10/2018		Agfa

Please update task 3 and the following dates will depend on that.
I will update the rest in line with the schedule and will distribute another Runsheet.

Kind Regards,

Dev

Hi Dev,
The archiving is a standard process that has been in place for years so no issue there. I think you need to swap 4 and 5 over, we need to replay the archived messages first, then connect up the live ACTPAS interface.
Cheers,
Michael

Hi Michael,

We are ready to start the PMI data extract today.
Is the achieving is in place are does it require be manually started?

The events as per the current schedule:

#	Task	Start Date	End Date
1	Achieving of ACTPAS messages	29/08/2018	
2	PMI Data Extraction	29/08/2018	31/09/2018
3	Agfa Patient Load	03/09/2018	07/09/2018
4	Start ACTPAS interface in Pre-prod	10/09/2018	
5	**Re-play the archived ACTPAS messages**	**10/09/2018**	
6	Agfa 20% RIS load	17/09/2018	21/09/2018
7	Image Migration of (first two years)	22/09/2018	12/10/2018
8	Agfa 80% RIS load	22/09/2018	12/10/2018
9	Image Migration of the rest	13/10/2018	

All these activities will be one after the other except for 7 and 8.

[redacted] could you please confirm that item 5 happening after item 4 would not be an issue?

Kind Regards,

Dev

Hi [redacted]

For the DICOM migration we indeed need the ACTIDIS_MIG and ACTIDIS_PRIORS to be created in the Siemens PACS also. This will make sure that the migration traffic is split from other data.

The IP, port, ... are all the same.

Kind Regards,

[redacted]

[redacted]

From the below we were due to create two Production AE Titles. From your email, do you need us to also create ACTIDIS_MIG and ACTIDIS_PRIORS, and will they both have the same IP and port?

Thanks
[redacted]

Subject: RE: [AUS - ACT] HL7 and DICOM migration status / questions [SEC=UNCLASSIFIED]

Hi [redacted]

We only have the following setup configured as this is all that has been requested to date:

Development	eidc1devcs.act.gov.au	10.24.2.66 104	EIDEV	All DICOM

The Agfa DICOM Modality setup document specifies the following environments locally:

Environment	Hostname	IP address & Port	AE title	Function
Production	actentdicom.act.gov.au	10.24.1.10 104	ACTIDIS	All DICOM
Production	As above	As above	ACTIDIS_DMWL	Optional DMWL
Testing	eidc1tstcs.act.gov.au	10.24.2.46 104	EITEST	All DICOM
Testing	As above	As above	EITEST_DMWL	Optional DMWL
Training	eidc1trncs.act.gov.au	10.24.2.56 104	EITRAIN	All DICOM
Training	As above	As above	EITRAIN_DMWL	Optional DMWL
Development	eidc1devcs.act.gov.au	10.24.2.66 104	EIDEV	All DICOM
Development	As above	As above	EIDEV_DMWL	Optional DMWL

Please advise which environment is to be used for Pre-prod and I can make the required entries in the Siemens PACS.

Regards,

Chris

Subject: RE: [AUS - ACT] HL7 and DICOM migration status / questions [SEC=UNCLASSIFIED]

It could be that we only know about the Prod PACS address? What [redacted] has below for ACTIDIS_MIG is different to the production PACS address:

Parameter	Value
HOST	actentdicom.act.gov.au
AE Title	EIPROD
IP	10.24.2.101
PORT	104

Do we need to somewhere specify 10.24.1.10?

Hi [redacted]

Nothings changed on our side so all the details should still be valid. I'm not sure that my team were too heavily involved in establishing the Test connection, outside of providing AE titles, ports, IP addresses

Chris/[redacted] was there any setup that occurred when establishing the connection to Test that needs to be replicated for pre prod?

Thanks

Scott

Scott,

Is there anything your team needs to do so Agfa can access the Siemens PACS from pre-Prod? It all worked for the Test environment but I don't know what might have been done to set that up.

Subject: [AUS - ACT] HL7 and DICOM migration status / questions

Hi All,

HL7 migration

The remaining reports should be completed in +/- 1,5 hours.

DICOM migration

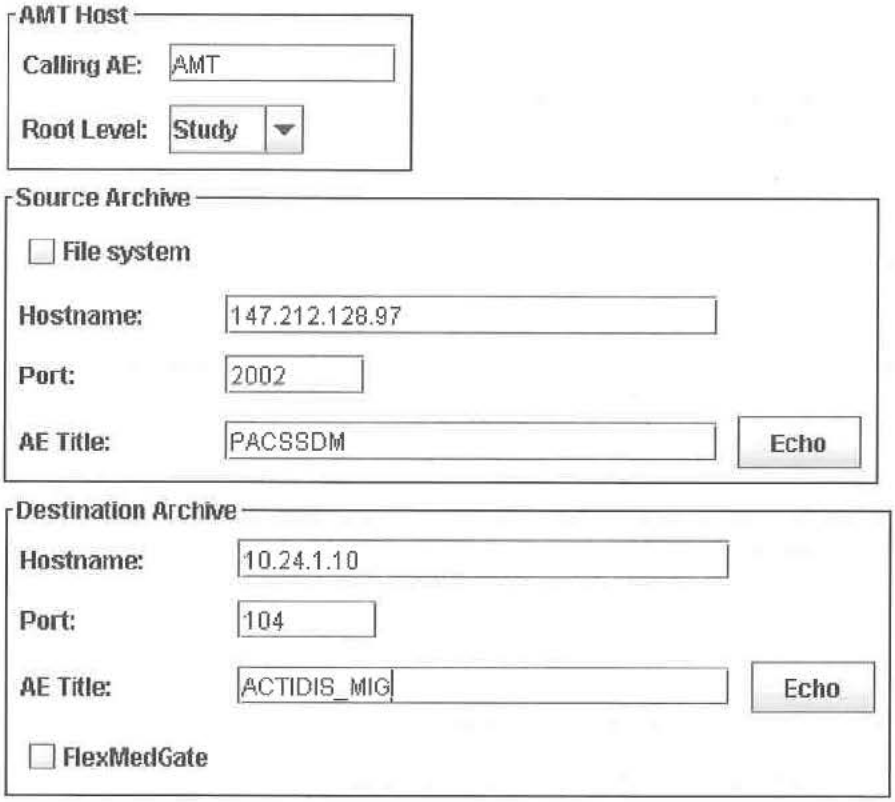
Validation / DICOM updates

Today I managed to execute the full validation and prepare all the needed DICOM header updates. The **data is now ready** to start the DICOM migration towards EI.

I do have a small amount of studies that didn't pass our validation and no updates are provided in the 'update excel files'. For these +/- 450 studies I will provide the details as soon as possible.

Migration startup / Connection testing

I tried to send some studies to the production system, but get a DICOM ERROR C001 on all the tests (some randomly selected StudyUIDs below). **Can someone have a look in the Siemens PACS if the AE Title(s) of EI have been created** and the permissions are OK for the C-MOVE operations ?
(I would advise to create ACTIDIS_MIG and ACTIDIIS_PRIORS)



[redacted]

Kind Regards,

[redacted]

Hi All,

Attached you can find the current HL7 migration status.
s you can see the HL7 ORU migration is almost at 80%.

Today I'll be working on the DICOM verification (DICOM vs HL7) and hopefully start the DICOM migration for studies that don't need any DICOM header updates.
(Starting with data from 2018)

Kind Regards,

Hi All,

The migration is running again after the updates to the paths.
The remaining time for the HL7 ORM migration is currently estimated to take another 2,5 days to complete.
Attached you can find the current migration status.

I'm still stuck on the last file that I need, PACS_Series.txt.
Can you zip that one also ? For some reason I can't most of the .txt files ...
The zip files copied very fast.

```

Subject: [AUS - ACT] ACTPAS/ EDIS configuration into production to start for the data migration for IDIS [SEC=UNCLASSIFIED]

Hi All,

HL7 migration

All needed data is now ready on the AMT server and the HL7 ORM migration was started. Once it has been running for a while, I will be able to provide some better stats, but currently I can say we are sending +/- 10 HL7 messages per second. That would be 3 to 4 days to complete the HL7 ORM migration.

Some attachments already failed, but I believe it simply is an extra space in the filename (after VPROT). @[redacted] (Health) Can you confirm that I can just remove the space and retry these ORM's ? (I have +/- 26.000 of these VPROT in the attachment extract, VTECH seems to have the same issue)

Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1477089_7060216.pdf cannot be found.
Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1497192_7093555.pdf cannot be found.
Attachment file \\eimigration01.act.gov.au\attachment_data$\Attachments\Interactive_documents\VPROT_1391902_6920855.pdf cannot be found.

DICOM migration

I can see all needed extracts on the provided share, but I don't seem to be able to copy the + 2GB 'image' files to the AMT server for import. The copy simply stops after a few seconds. Could someone try and zip these files ? Or can we think of another way to get them on the AMT folder: C:\Users\Administrator\Desktop\DICOM extracts\PROD

Kind Regards,

[redacted]

[redacted]

In regards to the below table, we are waiting on confirmation that the Archived ADT messages were all processed successfully, and that the live feeds from ACTPAS and EDIS are now being processed. We have not yet received any details on that task, including final processing statistics. Could you please follow up on that for us.

Additionally, we will not be able to deliver the RIS and PACS migration files today as scheduled, since Siemens have had problems processing the data at their end. We are expecting now that the earliest possible date for delivery from ACT Health to Agfa will be this Friday 21 September, though it is more likely to be CoB on Monday 24 Sept.

I have updated some of the table dates below to reflect actuals and adjusted expected dates.

Hi [redacted]

Apologies, I thought I sent this out after the meeting but realised that I did not sent it out.

My update to the events as discussed in the meeting 29/08/2018 4:30 – 5:10pm:

#	Task	Start Date	End Date	Resource
1	Archiving of ACTPAS messages	29/08/2018		Michael
2	PMI Data Extraction	29/08/2018	31/09/2018	[redacted]
3	Start ACTPAS interface in IDISP Pre-prod	[redacted] to fill-in		Agfa
4	Agfa Patient Load	04/09/2018	09/09/2018	Agfa
5	Re-play the archived ACTPAS messages	11/09/2018	14/09/2018??	Michael, Agfa
6	Start ACTPAS interface - ACTH	13/09/2018		Michael, Agfa
7	Agfa 20% RIS load	24/09/2018	28/09/2018	Agfa, [redacted]
8	Image Migration of (first two years)	29/09/2018	19/10/2018	Agfa
9	Agfa 80% RIS load	29/09/2018	19/10/2018	Agfa
10	Image Migration of the rest	20/10/2018		Agfa

Please update task 3 and the following dates will depend on that.
I will update the rest in line with the schedule and will distribute another Runsheet.

Kind Regards,

Dev

Hi Dev,
The archiving is a standard process that has been in place for years so no issue there. I think you need to swap 4 and 5 over, we need to replay the archived messages first, then connect up the live ACTPAS interface.
Cheers,
Michael

Hi Michael,

We are ready to start the PMI data extract today.
Is the achieving is in place are does it require be manually started?

The events as per the current schedule:

#	Task	Start Date	End Date
1	Achieving of ACTPAS messages	29/08/2018	
2	PMI Data Extraction	29/08/2018	31/09/2018
3	Agfa Patient Load	03/09/2018	07/09/2018
4	Start ACTPAS interface in Pre-prod	10/09/2018	
5	**Re-play the archived ACTPAS messages**	**10/09/2018**	
6	Agfa 20% RIS load	17/09/2018	21/09/2018
7	Image Migration of (first two years)	22/09/2018	12/10/2018
8	Agfa 80% RIS load	22/09/2018	12/10/2018
9	Image Migration of the rest	13/10/2018	

All these activities will be one after the other except for 7 and 8.

[redacted], could you please confirm that item 5 happening after item 4 would not be an issue?

Kind Regards,

Dev

Subject: ACTPAS/ EDIS configuration into production to start for the data migration for IDIS

Hi Michael,

Would you please activate the ACTPAS integration for IDIS into pre-production required for the data migration work? I have reviewed the processes we are proposing and am happy for this to move into pre-production so we can commence data migration.

Really appreciate it!

Kind Regards,

Subject: RE: [AUS - ACT] HL7 and DICOM migration status / questions [SEC=UNCLASSIFIED]

Hi [redacted]

We only have the following setup configured as this is all that has been requested to date:

Development	eidc1devcs.act.gov.au	10.24.2.66 104	EIDEV	All DICOM

The Agfa DICOM Modality setup document specifies the following environments locally:

Environment	Hostname	IP address & Port	AE title	Function
Production	actentdicom.act.gov.au	10.24.1.10 104	ACTIDIS	All DICOM
Production	As above	As above	ACTIDIS_DMWL	Optional DMWL
Testing	eidc1tstcs.act.gov.au	10.24.2.46 104	EITEST	All DICOM
Testing	As above	As above	EITEST_DMWL	Optional DMWL
Training	eidc1trncs.act.gov.au	10.24.2.56 104	EITRAIN	All DICOM
Training	As above	As above	EITRAIN_DMWL	Optional DMWL
Development	eidc1devcs.act.gov.au	10.24.2.66 104	EIDEV	All DICOM
Development	As above	As above	EIDEV_DMWL	Optional DMWL

Please advise which environment is to be used for Pre-prod and I can make the required entries in the Siemens PACS.

Regards,

Chris

Subject: RE: [AUS - ACT] HL7 and DICOM migration status / questions [SEC=UNCLASSIFIED]

It could be that we only know about the Prod PACS address? What [redacted] has below for ACTIDIS_MIG is different to the production PACS address:

Parameter	Value

HOST	actentdicom.act.gov.au
AE Title	EIPROD
IP	10.24.2.101
PORT	104

Do we need to somewhere specify 10.24.1.10?

Hi [redacted]

Nothings changed on our side so all the details should still be valid. I'm not sure that my team were too heavily involved in establishing the Test connection, outside of providing AE titles, ports, IP addresses

Chris/Nick, was there any setup that occurred when establishing the connection to Test that needs to be replicated for pre prod?

Thanks

Scott

Scott,

Is there anything your team needs to do so Agfa can access the Siemens PACS from pre-Prod? It all worked for the Test environment but I don't know what might have been done to set that up.

Subject: [AUS - ACT] HL7 and DICOM migration status / questions

Hi All,

HL7 migration

The remaining reports should be completed in +/- 1,5 hours.

DICOM migration

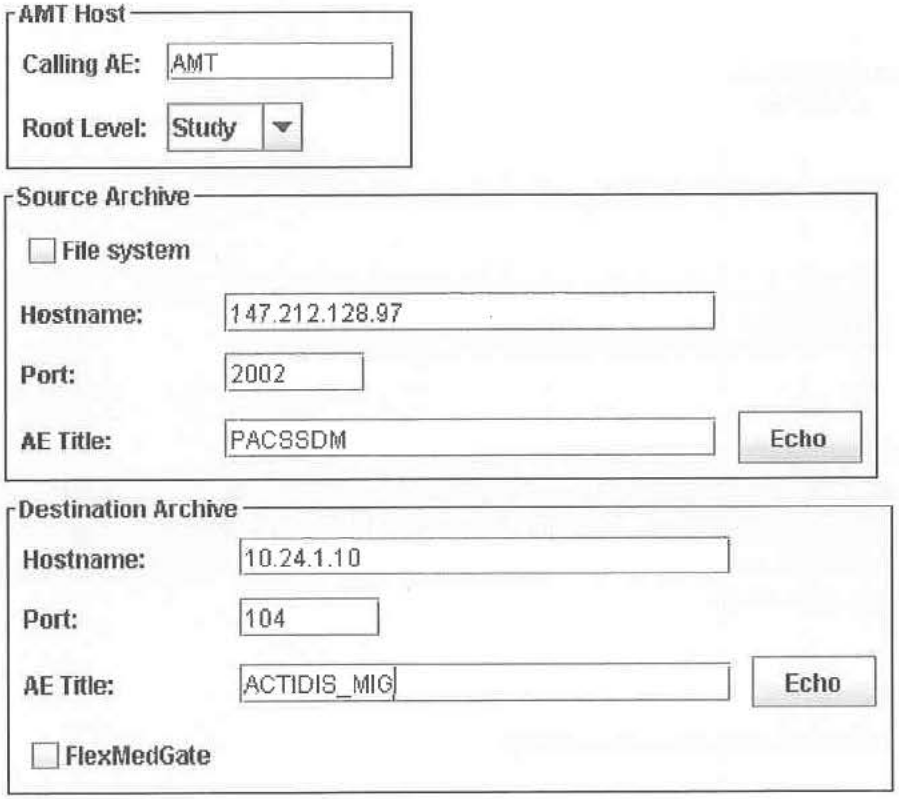
Validation / DICOM updates

Today I managed to execute the full validation and prepare all the needed DICOM header updates. The **data is now ready** to start the DICOM migration towards EI.

I do have a small amount of studies that didn't pass our validation and no updates are provided in the 'update excel files'. For these +/- 450 studies I will provide the details as soon as possible.

Migration startup / Connection testing

I tried to send some studies to the production system, but get a DICOM ERROR C001 on all the tests (some randomly selected StudyUIDs below). **Can someone have a look in the Siemens PACS if the AE Title(s) of EI have been created** and the permissions are OK for the C-MOVE operations ?
(I would advise to create ACTIDIS_MIG and ACTIDIIS_PRIORS)



[redacted]

Kind Regards,

[redacted]

Subject: [AUS - ACT] HL7 migration status

Hi All,

Attached you can find the current HL7 migration status.
As you can see the HL7 ORU migration is almost at 80%.

Today I'll be working on the DICOM verification (DICOM vs HL7) and hopefully start the DICOM migration for studies that don't need any DICOM header updates.
(Starting with data from 2018)

Kind Regards,

[redacted]

Subject: [AUS - ACT] HL7 migration status

FYI,

The HL7 ORM migration was completed a few moment ago.

I can't get the DICOM migration started today (and I don't want to on a Friday evening), so I did start the HL7 ORU migration with a high amount of threads to get this going over the weekend.

Kind Regards,

Subject: [AUS - ACT] HL7 migration status

Hi All,

Attached you can find the current migration status for the HL7 ORM migration.
The migration is estimated to take another 10 hours to complete the HL7 ORM part.
(After this the HL7 ORU and DICOM migration will be started)

@[redacted] (Health)
Thx, I now have all the files on the AMT server.

Kind Regards,

Hi [redacted]
Thanks for the migration status.

The series file has also been compressed as requested.
