Government

As the ACT Government embarks on designing the new state-of-the-art emergency, surgical and critical health care facility at Canberra Hospital, we would like to invite interested community members and interest group representatives to join our Local Community Reference Group.

The group will enable the local community to have its voice heard throughout the planning and development of the SPIRE Project, and will be one of the formal mechanisms for the community to provide comment and feedback.

Detailed design of the SPIRE Project will take place in 2020, with the new facility expected to open in 2024

CANBERRA'S CHANGING DEMAND FOR HEALTHCARE SERVICES

By 2032, the ACT's population, and that of the surrounding region, is forecast to increase by more than 120,000. Combined with an ageing population, this growth will increase the demand on health services that are already operating at, or

near, capacity. The new state-of-the-art emergency, surgical and critical health care facility at the Canberra Hospital will serve Canberrans for generations to come.

BEGINNING THE JOURNEY TOGETHER

Consultation has begun with our near neighbours and the wider ACT community to introduce the SPIRE Project. This consultation includes the establishment of a Local Community Reference Group, a Consumer Reference Group and the Clinical Advisory Group which has ten Clinical Working Groups reporting directly to it on matters involving clinical requirements and models of care.

These conversations are just the start of the journey. Through community groups, information forums and online surveys, there will be ongoing opportunities for community input.

LOCAL COMMUNITY FEEDBACK

Initial local community consultation has focused on three main elements for the SPIRE Project team to consider during the design process; safety, traffic and parking.

In relation to **safety**, it has been raised that the location of Garran Primary School is adjacent to the location of the SPIRE Project. To address these concerns, we're conducting traffic studies to better understand these concerns.

Work is underway to determine **traffic flows**, and the general visibility of drivers and pedestrians as well as impacts on the traffic network. This report will be shared broadly once finalised.

Another point has been made about the entrance to the new facility. We

note that while there are considerable advantages to separating the main Emergency Department entry from the ambulance entry, further analysis to better understand the impacts on the traffic network will be carried out before any decisions are made.

Dedicated offsite **parking** will be provided for construction workers during the building of the SPIRE Project. Parking concerns for the public will be addressed in the next phase of the Canberra Hospital Campus Master Plan. Consultation in this phase will be extensive and will include clinicians, the campus workforce and the local community. The Campus Master Plan will be integrated with the SPIRE Project and both project teams will be working collaboratively to ensure a seamless outcome for Hospital users.

COMMUNITY CONSULTATION

The purpose of consulting with the community is to understand everybody's concerns and the implications associated with a project. It's important to note this project is still in the early stages of detailed design and the Government will work closely with the community and design experts to understand all the implications of this facility.

THE SPIRE PROJECT'S FOOTPRINT ON THE CANBERRA HOSPITAL CAMPUS

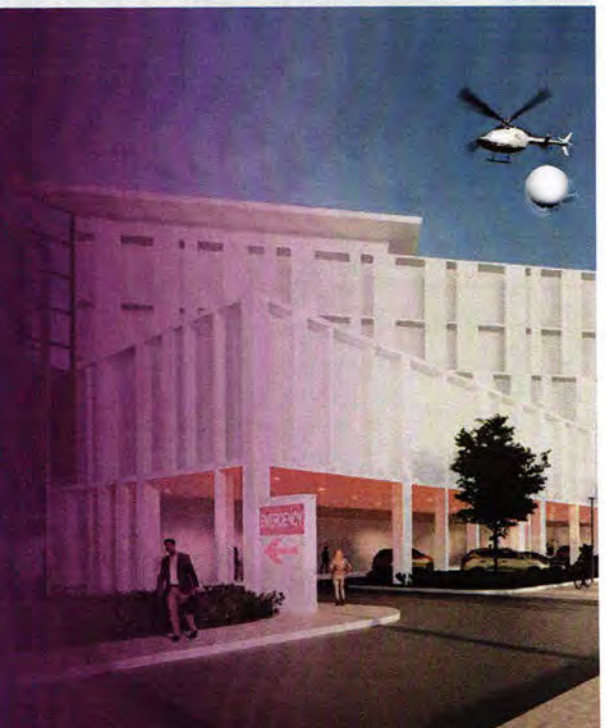

When constructing new, large health care facilities, it is important to get the details right. There has been significant planning work done on the Canberra Hospital Campus Master Plan over many years to ensure the final scope of the project meets the needs of Canberrans long into the future.

Many of the hospital's facilities are approaching the end of their useful lives. Retrofitting them with new and emerging technology is very challenging and costly and would impact the hospital's capacity to provide patient services.

The decision on where to locate the SPIRE Project facility was not made in isolation of this previous work and the best outcome for patients was ultimately the defining influence on its location. This was based on the space available on campus, linkages to existing services, and the ability to keep all clinical services open during construction. The final phase of the hospital Campus Master Plan is expected to be completed in June 2020. The new facility will connect to the existing hospital facilities, ensuring patients can be transferred safely and efficiently.

SPIRE Project FAQs

How tall will the new emergency, surgical and critical care facility be?

The new building will not exceed the height of any existing Canberra Hospital building. A concept design for the facility has been completed and the detailed designs will be developed during 2019 and 2020 in consultation with key stakeholders and clinicians.

Will there be noise reduction measures in place during construction?

As hospital site, a high level of attention will be paid to minimising noise and construction-related disturbances that may impact on the well-being of patients and neighbouring residents. At a minimum, all site preparation and construction will be subject to the Environment Protection Act 1997 and Environment Protection Regulation 2005 aiming to protect people from excessive noise.

Will the public be kept informed?

As the SPIRE Project progresses, Canberra residents will be kept informed through a variety of means including updates on the Major Projects Canberra website:

www.act.gov.au/majorprojectscanberra, the Our Canberra newsletter, leaflet drops and information forums. Enquiries may be directed to SPIRE@act.gov.au. You can also register to receive project updates via the subscription button on this page.

Are you building more car parks?

Access to car parking at the Canberra Hospital is acknowledged as an ongoing concern for patients, visitors and staff. ACT Health, together with Canberra Health Services, is currently exploring options to support increased access to parking on or near the hospital site. Further information regarding parking will become available as plans progress.

Where will the Emergency Department be located?

The Hospital's Emergency Department (ED) will be in the new building. Once the facility is operational, the existing ED will close. The helipad, currently adjacent to Building 12, will also be re-located to the top of the new building which will ensure rapid access to the ED.

What's happening with the health and residential services currently available in building 5?

New accommodation will be found for the Sexual Health and Child at Risk Health Unit services currently operating in Building 5. Consultation with staff and users is currently underway to assist in identifying suitable office and clinical spaces. Further information will be available as planning progresses.

The Building 5 residences will continue to be accessible until mid/late 2020 for interstate visitors and carers of patients who live more than 100km from Canberra Hospital.

Canberra Health Services, with input from impacted stakeholders, is currently developing plans for the alternative arrangements that will be put in place for patients and carers going forward.

What's going in the new building?

The new facility will greatly increase Canberra Hospital's capacity across a range of emergency and critical care services. The building will include:

- 148 inpatient beds (60 Intensive Care Unit beds, 64 surgical inpatient beds and 24 Acute Cardiac Care Unit beds)
- 22 operating theatres
- 55 day-surgery beds
- 2 Cardiac Catheterisation Laboratories
- 114 emergency treatment spaces
- a 10-bed Short Stay Mental Health Unit
- integrated radiology and medical imaging facilities
- 12 ambulance bays
- patient, carer and staff spaces for reflection, learning and meeting

In addition to the increases in critical care service capacity, the project will deliver improved access between the helipad, ambulance bay, emergency department and critical care facilities.

When will it be finished?

The SPIRE Project is scheduled for completion in 2023/24.

Goulburn Post

Thanks for the information.

I attended the workshop in Goulburn and would like to request information regarding:

1) Names of the officials present for the workshop in Goulburn. Is it possible to get a quote from the concerned person regarding the workshop held in Goulburn today?

We are not able to provide any quotes on behalf of the workshop participant due to privacy provisions but understand that the journalist was present at the Goulburn session.

Canberra Health Services (CHS) staff present at the sessions included John Ludvigson, Daniel Ingram, Isabel Massey, Angie Drake. It is preferable that staff not be named but that they are referred to as 'CHS staff representatives'.

2) What was the idea behind holding the feedback workshop?

Canberra Health Services is looking for feedback from members of the community who have used the service or have experience with the service because of a family member, so that we develop optimal solutions to provide support for patients, carers and families. All feedback that we receive will assist in developing the best solutions going forward.

3) How has the response been for the online survey? When is the last date for the survey? Is it possible to get number of people who responded from Goulburn?

The online survey has been in place for just over a week and has received more than 600 responses – with around 300 completed in one day (yesterday). At this stage, we have not undertaken analysis on the location of the respondents but will do so when analysing the data.

We will keep the online survey open until Friday 11 October and would encourage anyone who would like a say to do so. The online survey can be accessed at

<https://www.surveymonkey.com/r/RASfuture>

4) Who were contacted to create awareness about the workshop in Goulburn?

Targeted invitations have been distributed to local carer and consumer organisations who have links with stakeholders and consumers in the NSW region. Invitations have also been distributed via the Southern Area Local Health Network in regional areas and some targeted advertising and some media interviews with local radio stations.

5) Only one person attended the workshop in Goulburn. Are any more workshops being planned for Goulburn to get a feedback?

CHS and the engagement consultants will assess the need for further workshops in regional areas, and will consider the survey results and how many were from the Goulburn area.

There is one final workshop in Canberra on Wednesday 3 October from 5 – 7pm and members of the community and from the outer regional areas are also very welcome to attend.

The engagement team will continue to work and listen the needs of the community as this engagement process continues.

More information can be obtained by emailing feedback@communicationlink.com.au.

The online survey can be accessed at <https://www.surveymonkey.com/r/RASfuture>

Short term accommodation for families, carers and patients at Canberra Hospital

The ACT Government is investing in the Canberra Hospital site over the coming years to ensure it can deliver the best hospital care for Canberra and the region. A major part of this work is the construction of a new Surgical Procedures, Interventional Radiology and Emergency centre (known as SPIRE). This major project will deliver great benefits for the people who use our health system.

To enable the SPIRE project to be built, a number of older buildings on the hospital campus will need to be demolished to make way for the new buildings. One of these older buildings, Building 5, currently houses the Patient Accommodation Service, an important service that provides short-term, affordable accommodation for patients, their families and carers who travel to the ACT for treatment.

The Patient Accommodation Service will continue to operate in its current form until mid-2020.

The Health Care Consumers' Association and Carers ACT are working with Canberra Health Services to understand the accommodation needs of people who use Canberra Health Services and live outside the ACT, and identify alternative options to support patients, carers and families after the building is demolished.

We would like your input into this important work.

Short term accommodation for families, carers and patients at Canberra Hospital

The ACT Government is investing in the modernisation of Canberra Health Services over the coming years. A major part of this work is the construction of the Surgical Procedures, Interventional Radiology and Emergency (SPIRE) centre. Building 5 and other older buildings on the footprint of the future SPIRE site on the Canberra Hospital campus will be demolished in mid-2020 to enable SPIRE building works to proceed.

Residential Accommodation Services operates in Building 5 and provides short-term, affordable accommodation for outpatients requiring healthcare treatment in the ACT, and their carers.

Residential Accommodation Services will continue to operate in its current form until mid-2020.

Completing this survey will assist Canberra Health Services to understand the accommodation needs of people who use Canberra Health Services and live outside the ACT, and identify optimal solutions to support outpatients, carers and families after Building 5 is demolished.

Perhaps the he management should be looking for alternative sites. It seems to me that the site is at full capacity with all of the works currently being crammed in.	10/5/2019 7:26 AM

My Grandparents were country people and not at all tech savvy or comfortable in a city environment. Easily accessible support services where necessary would go a long way toward making similar people feel at ease when they need it the most.	10/4/2019 10:46 AM

Canberra Hospital Residential Accommodation Services (RAS)

477	My husband has been several times in Canberra Hospital and I have used the RAS accommodation each time. The facility is wonderful. I am in my 80s and I am the primary carer for my husband who has dementia. I was able to walk to the ward every morning and night. it was an easy walk, I felt very safe. The room and kitchen had everything I needed. As someone from the bush, I am not a confident driver in the city and having to drive to the hospital each day would have added to my stress and tension levels. Thank you Canberra Hospital for providing this wonderful service and please keep it up.	10/1/2019 1:20 AM

Canberra Hospital Residential Accommodation Services (RAS)

506	A disabled bathroom is a necessity for me. I felt unsafe in bathrooms and showers without locks on the doors. It felt creepy in the corridors when I had to be there on my own. I was scared. I wouldn't stay there on my own again. The walk along that tunnel was deemed to be safe, yet, I felt unsafe in there. It was creepy and so so long. I wouldn't do that again. The rooms were a bit tiny for a couple. But we were very grateful to have it all just the same. For me the biggest issue was disabled bathroom and assured safety when I was on my own. Thank you for the opportunity to have this input.	9/29/2019 8:58 AM

522	Staff were wonderful, accommodation basic but served the function. Also o stayed at the accommodation inbetween shifts when working as a nurse at the hospital rather than driving home which would have been dangerous.	9/27/2019 8:37 AM
523	Air conditioning. The rooms are unbearably hot in Summer. Dreadful when you are staying there with a sick relative & even when staying as a carer, you can't get to sleep due to the excessive heat.	9/27/2019 6:48 AM
524	All good	9/27/2019 5:40 AM

530	Please please do not shut down this accommodation. My dad is often in Canberra hospital and I stay at this facility. It means I can be close by to him when times are tough, especially when I have to come from interstate.	9/26/2019 7:12 PM
531	The service from the staff was very supportive, the service is vital to those who live in a rural location	9/26/2019 11:03 AM
532	Room was quite warm when I stayed during summer	9/26/2019 9:47 AM
533	Maybe a change of linen more than once a week. More lighting when you walk across from the hospital, it's a bit scary once it's dark.	9/26/2019 9:28 AM
534	No, I was supported well, Really appreciated vouchers to use the cafeteria	9/26/2019 7:42 AM

Canberra Hospital Residential Accommodation Services (RAS)

Q9 If RAS was not available, what would you have done instead?

#	RESPONSES	DATE
1	probably motel	10/12/2019 3:16 AM
2	Drive from interstate (when living in country NSW) and sometimes motel accommodation	10/12/2019 2:26 AM
3	Had to pay for holiday accommodation in Canberra	10/10/2019 3:02 PM
4	If RAS had not been available I probably would have been forced to go to Sydney for treatment as, at the time, I had family there where I could stay. I did not and still do not have family connections in Canberra.	10/10/2019 5:22 AM
5	Sat in a chair outside my family members room as I have done hundreds of times previously	10/10/2019 12:22 AM
6	A motel at probably \$100 plus daily and without a car.	10/10/2019 12:04 AM
7	not sure as i needed to attend the hospital daily fro 8 weeks	10/10/2019 12:02 AM
8	Some patients would need to be booked into hospital a day prior to their surgery - using a hospital bed unnecessarily	10/9/2019 8:49 PM
9	My hubby and my dad would have had to travel back an forth as my mum was in Canberra hospital with a anurisim	10/9/2019 8:14 AM
10	I do not know, not knowing of any motels within a reasonable distance - and more expensive. It would have added to the strain of the medical events.	10/9/2019 6:46 AM
11	Travel back to the coast. Could not afford accommodation in motels etc. Could not stay and support family admitted to canberra	10/9/2019 6:38 AM
12	Driven home for an hour after each night tired and driven to work at 11pm - both seemed too risky	10/9/2019 4:59 AM
13	No idea - the pts would have been unable to access required overnight accommodation - with no ability to pay.	10/9/2019 4:40 AM
14	I would have had to travel back to Boorowa every night and then back to Canberra the next morning	10/9/2019 4:07 AM
15	Not sure - tried for a short term apartment/unit (3 weeks) or cheap hotel.	10/9/2019 12:34 AM
16	I would have had to find a motel and on one occasion it was very late at night when there was someone from the hospital available to accompany me to the accommodation which was very very reassuring.	10/8/2019 10:12 PM
17	Commuted daily	10/8/2019 9:02 PM
18	I honestly Dont know as my mum was having cancer treatment	10/8/2019 7:33 PM
19	driven 3 hours home	10/8/2019 7:07 PM
20	Would have had to drive back home and not be there to support patient.	10/8/2019 1:23 PM
21	I don't know what I would have done as I live 3 hours away and I didn't have any family close by or the money for a motel room as a motel room is at least 3 to 4 times dearer , I have had both my grandparents have open heart surgery, plus both my parents and step parent , have been in the cardiac wards and my my father in the ICU and at these times it was so convenient to be staying close by.	10/8/2019 4:15 AM
22	No idea. My son was in ICU and I came from interstate. Would have been completely lost without RAS	10/8/2019 2:08 AM
23	I would have still had to travel by bus to Woden, then probably get Taxi to a motel and arrange for early taxi pick up from motel next morning back to Woden hospital, and upon discharge either wait for bus back to Pambula or go to motel again overnight and back to Woden bus stop . (get meals best way possible) All this would have added greatly to the cost and to stress.	10/7/2019 11:18 PM
24	Had to drive back to Batemans Bay or find a motel	10/7/2019 10:39 PM
25	Not sure	10/7/2019 7:35 PM
26	I dont know, cant afford motel accommodation nor travel daily to canberra	10/7/2019 7:21 PM

Canberra Hospital Residential Accommodation Services (RAS)

27	Slept in the car	10/7/2019 8:10 AM
28	We would have had to pay so much more for a motel room somewhere. On top of petrol to get to and from Canberra, that means we would be paying at least \$200 for just one days procedure. I just can't imagine what we'd do if a longer stay was necessary.	10/7/2019 4:58 AM
29	Paid a lot of money privately	10/6/2019 11:26 PM
30	We would have had to use much higher priced accommodation at a distance from the hospital	10/6/2019 11:14 PM
31	stayed in more expensive and distant accommodation or considered where else I could get care that supports rural people needing to stay away from home even though that would be even further from my home.	10/6/2019 9:35 PM
32	Slept in my car	10/6/2019 9:20 PM
33	Stayed at a motel	10/6/2019 8:41 PM
34	Not sure	10/6/2019 8:30 PM
35	Have it pay for a motel	10/6/2019 7:42 PM
36	I dint know, so close and very helpful	10/6/2019 7:13 PM
37	Had to pay up to \$200 per number night	10/6/2019 6:49 PM
38	Motel	10/6/2019 6:41 PM
39	Been on the street. Not able to afford other accommodations	10/6/2019 9:55 AM
40	Used my credit card then slept in my car	10/6/2019 9:46 AM
41	Don't know	10/6/2019 9:23 AM
42	I couldn't have spent the last days with my mother and brother. It's a service that is needed for rural people.	10/6/2019 8:59 AM
43	Stayed elsewhere in Canberra further away from the patient and most likely at greater expense.	10/6/2019 8:09 AM
44	I would have had to try to afford other accommodation elsewhere and also take extra time off work to take my mother and father to and from the hospital. Also may have had to travel from Bega to Canberra then Canberra to Bega daily.	10/6/2019 7:46 AM
45	Stay at a motel or unit depending on the length of time family was a inpatient at TCH	10/6/2019 7:34 AM
46	Wouldn't have been able to stay	10/6/2019 6:29 AM
47	I would've had to have stayed at other accommodation which would've been a lot more expensive & not convenient!	10/6/2019 6:08 AM
48	Either paid for motel or had to trave daily.	10/6/2019 5:57 AM
49	Spent a fortune on a motel I couldn't afford	10/6/2019 5:52 AM
50	I would have had to pay the overpriced accomodation available in Canberra, making the trip both financially and emotionally stressful.	10/6/2019 5:01 AM
51	No other accommodation was available due to Floriade and school holidays	10/6/2019 3:59 AM
52	Probably would have needed to be admitted to hospital each week during my chemo as reactions required me to stay at or near the hospital following each weekly treatment.	10/6/2019 3:56 AM
53	Don't know	10/6/2019 3:40 AM
54	Not had radiotherapy for my breast cancer or been able to be with my husband in intensive care each day he was there as I could not afford a hotel as I do not know anyone in Canberra	10/6/2019 3:26 AM
55	Would not be able to afford Canberra accommodations so therefore would be unable to support loved ones which in itself creates more stress.	10/6/2019 2:28 AM
56	No idea . Come and go .	10/6/2019 2:22 AM
57	Hv no idea. I think it great you can stay near your loved ones.	10/6/2019 1:19 AM
58	I honestly don't know. I could not have afforded a motel for over 6 weeks, my partner suffered a TBA	10/6/2019 1:04 AM
59	Would have had to either pay for a hotel room and risked driving home to Goulburn	10/5/2019 11:52 PM
60	I would have to travel back and forth from batemans bay	10/5/2019 9:47 PM
61	Probably look for an air bnb	10/5/2019 9:42 PM

Canberra Hospital Residential Accommodation Services (RAS)

62	Would have needed to pay for a hotel and for parking much further from the hotel. The major issue is not being close to do multiple visits to the hospital during the day and walking late at night is not safe.	10/5/2019 9:08 PM
63	I don't know	10/5/2019 8:44 PM
64	I would have had to drive back and forth to Goulburn while my baby stayed in the NICU for 3 weeks	10/5/2019 8:10 PM
65	Slept in the car or tried to get a cabin in a caravan park	10/5/2019 8:03 PM
66	Forced to pay for expensive hotel	10/5/2019 7:45 PM
67	Travelled daily	10/5/2019 7:30 PM
68	Travelled the highway, extremely fatigued. Then return again, still fatigued, when I received a phone call from ICU when my family members condition changed	10/5/2019 7:23 PM
69	Either travel over 3 hours daily or use expensive motels and purchase take away meals and still travel to and from the hospital.	10/5/2019 7:01 PM
70	Slept in my car	10/5/2019 5:19 PM
71	Slept in my car	10/5/2019 9:45 AM
72	In this circumstance, there is no such thing as 'instead'. There are simply no other options. Desperately ill and undergoing Chemo and Radiotherapy, Mum and dad and I once had to stay at the Abode Hotel at Woden shopping centre. It cost us \$600 for 1 night. And it was the cheapest around. There was absolutely no facilities, support or close help for someone in her condition, or me as her carer, unlike the residential accom at the hospital. And fair enough- it is a holiday hotel, not a hospital and not equipped for ill people. The only place, sick people and their carers/ family should be staying at is the RAS. Its as simple as that.	10/5/2019 9:00 AM
73	I don't know	10/5/2019 7:47 AM
74	Would have to pay more for accommodation at a hotel	10/5/2019 6:48 AM
75	We would have no other option than have to pay commercial accommodation rates during times when medical expenses are also high, stress is high and not necessarily be able to afford high rate accommodation. Affordability is a significant contributor. Our family member would have to travel home and leave our patient all alone.	10/5/2019 6:41 AM
76	stayed in the car	10/5/2019 6:37 AM
77	Paid whatever price motels were asking and traveled back and forwards. Motels in Canberra can be \$160 one week and if parliament is on the same room can be \$300- or Floride.	10/5/2019 6:33 AM
78	Find a motel	10/5/2019 5:50 AM
79	I have no idea - most probably not been able to offer my support	10/5/2019 5:50 AM
80	Would have had to pay for expensive hotel accommodation. Too hard for pensioner.	10/5/2019 5:41 AM
81	Paid alot of money to stay in accommodation and pay lots of fuel to travel for the family member in hospital	10/5/2019 5:13 AM
82	Couldn't go	10/5/2019 5:10 AM
83	Sat at the hospital it was emergency surgery and our home was to far from the hospital we had to stay close	10/5/2019 4:27 AM
84	I would have had to stay in a motel.	10/5/2019 4:05 AM
85	I don't know as I would not be able to afford a motel	10/5/2019 3:56 AM
86	Slept in my car	10/5/2019 3:46 AM
87	Travel to and from every day	10/5/2019 3:05 AM
88	I would have had to stay at a motel	10/5/2019 2:33 AM
89	1 o2 b n nights in motel and then sleep in car	10/5/2019 2:32 AM
90	Stayed in a motel	10/5/2019 2:14 AM
91	Would not have been able to support patient	10/5/2019 1:58 AM
92	I really don't know	10/5/2019 1:43 AM
93	Struggled alot and may not have been able to attend appointments	10/5/2019 1:21 AM
94	I would have to travel over 120 km each way daily to support my family needs	10/4/2019 11:46 PM

Canberra Hospital Residential Accommodation Services (RAS)

95	Have to stay in a motel	10/4/2019 11:02 PM
96	Had to find a caravan park as motels are too expensive.	10/4/2019 9:27 PM
97	I could not afford to stay to support my family member, or park my car, or travel regularly the hours it would take to visit interstate, it was the best and only option available. My presence helped staff with quality care. I would have needed to camp in my car.	10/4/2019 8:25 PM
98	Hotel	10/4/2019 8:20 PM
99	paid for lodgings and built more debt	10/4/2019 7:54 PM
100	Been very inconvenient, as id have go and find other nearby accomadation, be more out of pocket expenses and distance involved catching taxis buses when your sick isnt any fun .	10/4/2019 7:40 PM
101	Stay with family in Canberra, but they don't have a spare room so I would have had to sleep in their lounge room	10/4/2019 7:38 PM
102	Have to drive daily or pay exceptional prices for a motel a long way away from the hospital.	10/4/2019 7:37 PM
103	I really don't know	10/4/2019 7:34 PM
104	Would have to find alternative accommodation somewhere costing more	10/4/2019 7:29 PM
105	No idea, had to stay in a motel or had to leave my family members alone without support	10/4/2019 7:20 PM
106	Not sure as I would not have been able to afford accommodation elsewhere	10/4/2019 7:15 PM
107	Not knowing the area and not confident driving on his own he probably would have slept in the car	10/4/2019 6:29 PM
108	Treatment would not have been possible.	10/4/2019 6:20 PM
109	Sleep in my car on the grounds of the Hospital. Which I have had to do - when a social worker did not arrange the RAS Accommodation in time before close of business time.	10/4/2019 6:07 PM
110	Slept in my car	10/4/2019 5:38 PM
111	Stayed at a hotel,motel etc	10/4/2019 1:34 PM
112	Travelled	10/4/2019 11:50 AM
113	Slept in car or not been able to go!	10/4/2019 11:08 AM
114	If they were not able to use this service they would have spent significantly less time with their son before his passing.	10/4/2019 10:46 AM
115	I would have to pay for expensive accommodation. My family wouldn't have been able to be there to support me as an inpatient	10/4/2019 10:35 AM
116	My wife would of spent those 8 weeks on her own without family support. She had complications. She needed family to prevent depression.	10/4/2019 10:09 AM
117	I would have had to find alternate accommodation and in times of critical need this is not easy in an area that is not familiar	10/4/2019 10:07 AM

119	Tried to find cheap alternative accommodation	10/4/2019 10:04 AM
120	Drive back and forth	10/4/2019 9:59 AM
121	Driven 2 hours home and back again each day. Up and Down clyde mountain.	10/4/2019 9:56 AM
122	Try to find accommodation near by	10/4/2019 9:54 AM
123	I would have had to book into a motel paying around \$150 a night or return home & leave my husband without support	10/4/2019 9:47 AM
124	Lived in my car!	10/4/2019 9:35 AM
125	It would have made an already stressful situation worse by adding time away from hospital, increased financial burden and increased stress of family and patient. I would have attempted to stay at accommodation or needed to drive causing risk due to tiredness and stress	10/4/2019 9:34 AM
126	I would have had to try and find/afford own accommodation and parking etc	10/4/2019 9:14 AM

128	I may have found it difficult to remain in Canberra	10/4/2019 9:08 AM

Canberra Hospital Residential Accommodation Services (RAS)

130	If I couldn't sleep in the chair beside the bed... or in the icu lounge... I would've been sleeping in the car, in the carpark... apart from the need to be close to my family member, the hospital required that I/we be on call at all times...	10/4/2019 8:57 AM
131	Found a Motel nearby	10/4/2019 8:51 AM
132	Would not have been able to stay with my 20 year old son who had 2 Cardiac Arrests which left him with a severe hypoxic brain injury. 3 months in hospital, thank god for the accommodation there otherwise I would not have been able to afford to be with him	10/4/2019 8:45 AM

Also with a father in law who can't walk very far this accommodation is a god send for him.	10/4/2019 8:02 AM

145	Slept in my car	10/4/2019 7:50 AM
146	Hotel. Our first stay was for 4weeks with our child in the NICU, the expense of hotel accommodation would have added to an already stressful time.	10/4/2019 7:16 AM

153	Motel and would not of been able to support patient as well. Cost would have been financially crippling.	10/4/2019 4:35 AM
154	I wouldn't have been able to stay in Canberra and would have only been able to visit for a short time cause I didn't want to travel on the mountain in the dark	10/4/2019 4:33 AM
155	probably had to find a motel at considerable nightly cost / meals etc. This expense is also on top of driving a return trip of 400klms and petrol costs	10/4/2019 4:31 AM
156	Unsure, possibly have had to let family member be in Canberra alone.	10/4/2019 4:10 AM
157	Private accommodation, minimum of \$150/night	10/4/2019 3:55 AM
158	Motel	10/4/2019 3:38 AM
159	I don't know. Just forego treatment....you cannot squeeze blood out of a stone. Where do ordinary people, often on a pension get the money for just the lengthy periods of accommodation as well as out of pocket medical expenses? I would not have been able to stay to support my husband when he was so ill and he would have had nowhere to stay for his 6 weeks of daily radiation treatment.	10/4/2019 3:35 AM
160	Travelled at 4 am for a very long day trip	10/4/2019 3:28 AM
161	Return to Cooma each night	10/4/2019 3:21 AM

162	Drive 2hours each way each day	10/4/2019 3:15 AM
163	As we have no family or friends who live in C'berra that we could stay with would have to travel to C'berra very early up the Clyde mountain which does have fog, ice and bad weather often. As I am a pensioner I could not afford a motel and would be very stressed.	10/4/2019 2:22 AM
164	Struggled with accomodation costs	10/4/2019 2:14 AM

166	I don't know	10/4/2019 1:51 AM
167	I would have had to drive late at night back to cooma. The Monaro highway is dangerous at night and I was exhausted from the unexpected events.	10/4/2019 1:44 AM
168	Don't know I would have been stuck	10/4/2019 1:16 AM
169	I don't know. Possibly tried to find accommodation I could afford which would be very limited	10/4/2019 12:43 AM
170	Would have had to have stayed at a motel . The extra cost is difficult for a pensioner .	10/4/2019 12:41 AM
171	Im currently a patient in TCH My husband would of slept in our car as hotel/motel prices are unaffordable for us	10/4/2019 12:04 AM
172	Had to use my credit card and go into debt	10/3/2019 11:56 PM
173	Not had medical attention	10/3/2019 11:35 PM
174	Unsure	10/3/2019 11:25 PM

176	Could not afford to stay in a motel for 7 weeks	10/3/2019 11:13 PM
177	Would have been forced to pay for accommodation.	10/3/2019 11:02 PM
178	I do not know, as we do not know the ACT well enough I suppose it would have to go to hotel motel???	10/3/2019 10:51 PM
179	We would never have afforded accommodation in Canberra nor could we travel back and forth every day.the thought of this closing is adding to the stress for a lot of people	10/3/2019 10:13 PM
180	I have absolutely no idea. It was a godsend. I don't have any family to stay with in Canberra so I am guessing the only option would be a hotel. I really don't have the money to do that though. .	10/3/2019 10:09 PM
181	Slept in car	10/3/2019 10:00 PM
182	There are no suitable facilities for families who attend Canberra Hospital following a trauma or unplanned admission, particularly where this occurs at night and on the weekend.	10/3/2019 9:55 PM
183	Traveled early in the morning or stayed in a motel	10/3/2019 8:36 PM
184	Motel accommodation	10/3/2019 8:36 PM

191	Paid for expensive accommodation and required to travel daily	10/3/2019 7:54 PM
192	Paid accommodation which I could not afford	10/3/2019 7:52 PM
193	I wouldn't have been able to come finacial outlay to expensive	10/3/2019 7:50 PM
194	Stay in a Motel a distance away that would limit my ability to have flexibilty with visiting the patient. This is to come early - have a break - mid day visitation and evening visit	10/3/2019 7:44 PM
195	Unsure	10/3/2019 7:38 PM
196	Would have had to stay further away and transport would have been a great problem and time with love ones agreat deal less	10/3/2019 7:37 PM

210	I would not have been able to stay with my terminally ill husband as didn't know anyone to stay with	10/3/2019 3:21 PM
211	I would have been unable to stay with my partner. He would've had to be there alone for seven weeks	10/3/2019 2:15 PM

216	I couldn't have come to canberra for work	10/3/2019 10:47 AM
217	Hotel, but this would have been difficult due to cost and distance from hospital	10/3/2019 10:38 AM

226	More expensive accommodation	10/3/2019 10:05 AM

229	Slept in our car in the middle if canberras winter	10/3/2019 9:47 AM
230	Not been able to visit my critically ill father whilst he was being treated for stage 4 pancreatic cancer as I would not have been able to afford motel/hotel costs. Same when my husband was urgently transported to TCH after a heart attack.	10/3/2019 9:44 AM
231	Been out of pocket \$\$\$ by staying in hotels	10/3/2019 9:42 AM

Canberra Hospital Residential Accommodation Services (RAS)

236	My father was in rehab some 5 years ago for 3 months following a stroke from medical complications. This was, in turn was the result of complications from a hip replacement. He was 85 at the time and my mother, also 85 then stayed in the RAS several days each week, as did I, during this time. The cost of alternative accommodation would have been impossible for us to have met over that period. My mother does not drive so the close proximity was perfect. Home is over 100 km and 1 1/2 hrs drive from Canberra Hospital and an unworkable commute especially for aged pensioners. We do not have family in Canberra with whom we could have stayed. I cannot imagine my fathers good recovery would have been so had we and especially mum not been able to support him during that traumatic time.	10/3/2019 9:28 AM
237	We live 2.5 hours away from Canberra so we would have had to drive home or pay for a hotel away from the hospital	10/3/2019 9:24 AM
238	I would have short stays and traveled back when I could have afforded to pay for hotel accommodation	10/3/2019 9:23 AM
239	Gone home super broke & paying off a large debt & living a very poor life	10/3/2019 9:19 AM
240	Slept in my car	10/3/2019 9:18 AM
241	Completely unsure. It is a necessity! This service needs to remain in place.	10/3/2019 9:15 AM
242	Driven home at 2am in the morning	10/3/2019 9:10 AM
243	Stayed in a motel	10/3/2019 9:09 AM
244	Stay at a hotel until we couldn't afford it.	10/3/2019 9:06 AM
245	Paid for full price motel	10/3/2019 9:06 AM
246	Forced accommodation, or driven home in evening 2.5hr drive	10/3/2019 9:05 AM
247	Driven return 600kms home each day, would not be able to afford to stay in a motel	10/3/2019 9:05 AM
248	Slept in the car	10/3/2019 9:03 AM
249	Not have been close to my family member	10/3/2019 9:02 AM
250	Pay more for a hotel - it is impossible to drive in from the coast on the day for early-morning diagnostic appointments or surgeries.	10/3/2019 8:59 AM
251	Book an expensive motel	10/3/2019 8:58 AM
252	Slept in car perhaps? I couldn't afford ongoing other ther accommodation over any period of time not at Canberra prices. Often got too tired to safely travel back and forth between Berridale and Canberra especially when no-one is getting much sleep etc. Also wanted to be close to family member receiving treatment 'in case' ofs.	10/3/2019 8:52 AM
253	Had to book a room at a Motel at a cost that wouldn't have been affordable	10/3/2019 8:49 AM
254	Panic , as I can't drive in or know my way around Canberra	10/3/2019 8:49 AM
255	Motel	10/3/2019 8:49 AM
256	Slept in car at hospital	10/3/2019 8:47 AM
257	Would have to book a motel that I couldn't afford	10/3/2019 8:41 AM
258	I couldn't of afforded to help care for loved ones.	10/3/2019 8:40 AM
259	No idear expensive to get accommodation in Canberra for a Person from the country with a low income	10/3/2019 8:37 AM
260	Drove home and back up	10/3/2019 8:36 AM
261	Had to drive 1 hour to stay with family	10/3/2019 8:36 AM
262	DON'T KNOW	10/3/2019 8:30 AM
263	Tried to find cheap accomodation near the hospital which is impossible	10/3/2019 8:29 AM
264	If visiting I would have to get the bus at 7.00 am from Pambula and catch it at 4.00 pm to return arriving in the dark then driving home or being picked up. Not visited at all. For procedures my husband of eighty years could drive me at the moment but not for much longer and he would not be able to drive back the same day going down Brown Mountain.	10/3/2019 8:28 AM
265	I have no idea, coming on the bus from Eden for an early morning PET scan, there was no way I would drive there dodging all the animals and hairpin bends of Brown Mountain.	10/3/2019 8:27 AM
266	I'm not sure as we couldn't afford hotels	10/3/2019 8:21 AM
267	Hotel	10/3/2019 8:20 AM

Canberra Hospital Residential Accommodation Services (RAS)

268	I would have slept in my car	10/3/2019 8:15 AM
269	I guess we would have had to stay in a hotel and it's unaffordable.	10/3/2019 8:12 AM
270	Not supported the patient.	10/3/2019 8:11 AM
271	Don't know and don't want to have to think about it not being there	10/3/2019 8:08 AM
272	Stayed in a motel	10/3/2019 7:39 AM
273	Find accommodation, suffer the cost of a bed and use public transport which is very complex	10/3/2019 7:22 AM
274	We stayed at the YHA when it was in O'connor Very inconvenient when you don't have a car.	10/3/2019 7:01 AM
275	I don't know, i was there for 7 weeks	10/3/2019 6:57 AM
276	Drive 3 hrs	10/3/2019 6:45 AM
277	Very difficult... no friends or relatives in Canberra. Would have had to find accomodation suitable to you budget, but the convenience staying on campus is what would be hard	10/3/2019 6:18 AM
278	My mother would have paid hundreds of dollars to be there to support me in my time of need when there could have been a better and cheaper option.	10/3/2019 5:54 AM
279	Had to leave my wife after having her baby and return to cooma	10/3/2019 5:53 AM
280	Honestly, I have no idea. I do not drive, motels are out of the question, too expensive and none nearby. I would probably have had to stay home and rely on phone calls, thereby not being able to support my husband through his cancer.	10/3/2019 5:46 AM
281	Find alternatives which would all involve travel	10/3/2019 5:45 AM
282	unsure, probably searched for a motel or driven back home and returned each day	10/3/2019 5:35 AM
283	Would of had the go to a motel at a lot dear cost plus being next to the hospital the patient can call you if they need you	10/3/2019 5:34 AM
284	We would have had to find hotel accommodation and drive to and from the hospital each day. Not only would it have been significantly more expensive it would have been much more difficult driving to and from the hospital at times when frankly we weren't in a state to drive from lack of sleep and stress. Also not being from Canberra would have made it much more difficult and stressful.	10/3/2019 5:12 AM
285	Travelled long distance	10/3/2019 4:47 AM
286	We don't know, probably fork out a fortune on accommodation that we couldn't afford at the time	10/3/2019 4:34 AM
287	slept in my car in the hospital carpark	10/3/2019 4:30 AM
288	Would have had to stay in a private hotel/motel that was 3 or 4 times more expensive. Plus we would have had to leave the hospital site every night and return daily.	10/3/2019 4:30 AM
289	Slept in car	10/3/2019 4:28 AM
290	Drove back to cooma	10/3/2019 4:23 AM
291	Drove 2 1/2 hours home	10/3/2019 4:13 AM
292	I would have needed to stay in a motel	10/3/2019 4:05 AM
293	Possibly stayed in a cabin at camping park, but some of the time I was without a vehicle so that would have been difficult & expensive.	10/3/2019 3:51 AM
294	Stay in a motel	10/3/2019 3:45 AM
295	Would have had to drive home (3 hours) or stay in a motel	10/3/2019 3:21 AM
296	My 94 year old Grandfather would have been at the Hospital without me having direct access. I would not have been able to afford motel accommodation as well as costs associated with being away from work	10/3/2019 3:03 AM
297	Had to pay much more to stay elsewhere or drive back and forward every day	10/3/2019 3:02 AM
298	Taken a loan to pay for alternative accommodation	10/3/2019 3:02 AM
299	I honestly don't know. Private accomodation would have been unaffordable.	10/3/2019 2:00 AM
300	Stayed at a hotel	10/3/2019 1:44 AM
301	I would have to have stayed in a motel and driven to the hospital every day. My last stay was for 8 days. Driving everyday would have been a pain as I was by myself.	10/3/2019 1:36 AM

Canberra Hospital Residential Accommodation Services (RAS)

302	Slept in the car	10/3/2019 1:31 AM

304	There isn't any alternative for me in a wheelchair .I need to use Community transport from Bega to get to the hospital and return	10/3/2019 1:24 AM
305	Looked at alternatives in Sydney and try to attend an outpatient service in Sydney	10/3/2019 1:20 AM
306	I would have to stay with my daughter if that was acceptable with her otherwise we would have to stay in a motel which would be challenging financially even using IPTAS as they don't pay until after the event.	10/3/2019 1:20 AM
307	either paid for alternate acc or not gone to Canberra	10/3/2019 12:58 AM
308	Stayed in a hotel	10/3/2019 12:56 AM
309	Had to pay extreme costs in motels while having treatment, it's expensive enough try to pay bills when sick & not earning a income but expensive accommodation as well will break the bank .	10/3/2019 12:22 AM
310	Driven 3 hours back to the coast in the middle of the night	10/3/2019 12:18 AM
311	Would have to drive or bus backwards and forwards	10/3/2019 12:16 AM
312	If I wasn't able to stay to support a family member I w have had to drive home to Bermagui. As a cancer patient needing treatment every day I would choose the option of being able to have my treatment in Nowra where accommodation is supplied. The Bega Hospital needs to provide Radiation Treatment for people in this area. After all it is supposed to be a Regional Hospital.	10/3/2019 12:14 AM
313	Couldn't have stayed with the patient due to finances and couldn't afford a motel for the amount of time I had to stay	10/3/2019 12:10 AM

318	Paid for expensive accommodation away from the hospital	10/2/2019 11:27 PM
319	Sleep in my car	10/2/2019 11:06 PM

325	Not sure	10/2/2019 10:06 PM
326	Paid for deira accommodation	10/2/2019 10:06 PM
327	Traveled back home	10/2/2019 10:05 PM
328	We would have had to get accommodation which would have been more bills on top of the medical treatment my brother was receiving, and wouldn't have been as close to the hospital as we were so was convenient to visit him when we wanted to.	10/2/2019 10:04 PM
329	Impossible to contemplate	10/2/2019 10:01 PM
330	Sleep in my car and I couldn't afford a motel	10/2/2019 9:56 PM
331	Would have had to drive from Crookwell to Canberra twice a day	10/2/2019 9:55 PM

342	Slept in the car	10/2/2019 8:44 PM

351	Not sure	10/2/2019 7:59 PM
352	Stayed at the bedside	10/2/2019 7:55 PM

384	She does not know yet what she will do when the RAS closes. Canberra is an expensive place to rent a flat, one bedders are as rare as hen's teeth and she won't need the accommodation 7/7, maybe only 4/7. It's quite a dilemma!	10/2/2019 11:16 AM

Canberra Hospital Residential Accommodation Services (RAS)

409	Not been able to supported my son in law and daughter when her husband was dying. Not had the support of my partner when in Canberra hospital myself for operation, so I would have been totally alone during that period as all family members would have had to travel.	10/2/2019 9:44 AM

423	Unsure, probably have to sleep in a hard plastic chair in a hallway	10/2/2019 9:06 AM

425	Slept in car.	10/2/2019 9:04 AM
426	Had to stay a expensive motel that we could not afford and not driving would be more expensive	10/2/2019 8:57 AM

439	Good question. Probably have to pay motel acc of around 150 to 180\$ per night. My longest stay at the residence was 10 weeks. If that were to happen again I would have to purchase a tent	10/2/2019 8:20 AM

456	I don't know. I couldn't afford accommodation in Canberra when my local hospital couldn't provide paediatrics , Fetal Unit for high risk pregnancies, ENT & surgeries. I had to stay 2 weeks in Canberra when both my daughters had their tonsils out. Lucky as my daughter haemorrhage 500mls of blood 24hrs after surgery. 472	Slept in the car in the multi level carpark for myself, for the person I was caring for, this wouldn't be an option when he was also staying in RAS. 551	I would have had to travel from Goulburn each day or would have to find affordable local accommodation.	10/1/2019 8:23 PM
552	Would have had to look for other accommodation which would also mean we would need transport. Maybe motel. This can be extremely difficult for eg my parents were elderly needing to be close by to support which ever one of them were in hospital. For us only one vehicle when up there with a family member in hospital one of us had to return home with vehicle so being able to walk across the road to hospital was extremely necessary.	10/1/2019 8:23 PM

560	Had to pay for a motel	10/1/2019 6:54 PM
561	I would not have been able to be there for my husband while he was in hospital. I could only have visited once a week and stayed overnight in a cheap motel if one was available. Often it is impossible to find a motel at less than \$125 per night, which for a pensioner is a huge cost. Once my husband was discharged and required radiation treatment five days per week for six weeks, I have no idea what we would have done if RAS was not available.	10/1/2019 6:51 PM
562	I would have had to find accommodation away from the hospital, so would have to drive in the traffic which I don't like plus the time on getting to & from hospital. Where as staying soo close in the Building 5 was excellent	10/1/2019 6:46 PM

591	Traveled every couple of days as couldn't afford to spend the amount on hotels	10/1/2019 7:53 AM
592	I would have had to pay for accommodation at a hotel, witch can be very costly at a time when your missing work and most people don't plan to end up in hospital	10/1/2019 7:50 AM
593	We would have found it very difficult. We gave birth to triplets prematurely and they were required to stay in hospital for 8 weeks although I was discharged. We lived more than 2 hrs from home. We couldn't have afforded paid accommodation nor could we travel every day especially meeting the care needs.	10/1/2019 7:49 AM

638	I don't know.	10/1/2019 1:20 AM
639	We would have had to book commercial accommodation, which would have proved very expensive given the length of time our family member was in hospital, and far less conveniently located.	10/1/2019 1:07 AM
640	Would have had to try to find an hotel or apartment close by so my child could still receive the treatment he needed. Butbthisbis iften expensive at \$200+ a night which puts incredible financial strain on an already stressful and expensive time	10/1/2019 12:55 AM

Canberra Hospital Residential Accommodation Services (RAS)

678	We don't have family in Canberra so we would have had to stay at a Motel and that would have been at considerable extra cost for accommodation whilst my husband was having and recovering from Surgery and if a partner does not drive you are then forced to use public transport or a taxi which is then added costs again. Currently in short walking distance the elderly are able to be independent and look after their partner and get around by themselves.	9/29/2019 2:06 AM

Also finding accessible and financially feasible accom close to the hospital would have caused more stress and fatigue for myself and my family then we needed! We don't know what we would have dimension without RAS and it's facilities!	9/27/2019 1:39 PM
685	Not sure, it would have been extremely difficult	9/27/2019 12:53 PM

708	Been terribly out of pocket having to stay at a motel for a couple of nights then travelled home therefore that's a risk driving and my husband would have been in hospital with no one to visit him	9/26/2019 9:28 AM

720	stay in a motel which we could't afford.	9/25/2019 10:49 PM
721	From a personal perspective, I would have stayed with relatives/friends in Canberra or at a hotel and then claimed IPTAAS. I am lucky to have friends/family in the area. However, I also work in oncology at a rural/regional service and refer patients/carers to the RAS every week for treatment. Our patients may require daily outpatient treatment (radiation or chemotherapy) for six week blocks at a time. The RAS service can be bulk billed with IPTAAS. Accommodation for these patients/carers in Canberra/Queanbeyan is otherwise COMPLETELY unaffordable. Even when subsidised with IPTAAS, the personal out of pocket expenses would be well over \$70 a day (and more prior to IPTAAS reimbursement). Many patients/carers simply don't have those funds available. It is unrealistic to think that they do. If the RAS service is not available, I suspect that the cost of accommodation in Canberra/Queanbeyan etc will be unaffordable for many patients who may simply opt not to undergo recommended/required cancer treatment. Given that rural/regional patients have poorer health outcomes generally, this is very disturbing. The closure of such an important service shows a complete lack of insight into the issues facing rural/regional cancer patients who are attempting to access necessary and life saving health care.	9/25/2019 10:40 PM
722	Find the nearest accommodation to the hospital. No car so would have to walk	9/25/2019 10:22 PM
